

Fig.1

Fig.2

Fig.3

Fig. 3 is a cross-sectional view of the device of Fig. 1, taken along the line 3-3 of Fig. 1, showing the internal components and the housing 2. The housing 2 is shown in cross-section, and the internal components are shown in solid lines. The housing 2 has a central longitudinal slot 22, and the internal components are mounted on a base 10. The base 10 has a central longitudinal slot 24, and the internal components are secured to the base 10 by a screw 8. The internal components include a top cover 64, a top flange 26, a central longitudinal slot 20, and a bottom flange 24. The top cover 64 is secured to the top flange 26 by a screw 65. The bottom flange 24 is secured to the base 10 by a screw 8. The central longitudinal slot 20 is aligned with the central longitudinal slot 24 of the base 10. The housing 2 is shown in cross-section, and the internal components are shown in solid lines.
